Brief Description of Seminar Content
This seminar will be a workshop based on the seminar held last April 30, 2008 with the theme "Towards a Roadmap for Shared Growth Through the Philippine Auto Industry". The basic objective of the workshop is to move one step closer to arriving at such a roadmap that could actually be implemented. As a starting point of this process, we will present in detail the roadmap proposed in the last shared growth seminar. While doing so, we would like to solicit inputs from the workshop participants, as well as to clarify certain important aspects of the proposed roadmap. Our ultimate aim is to come up with a realistic roadmap that would be acceptable to most if not all concerned parties.
