

The Fourth International Symposium in Ulaanbaatar
The History and Culture of Mongols in the 20th Century

December 20, 2010

Dear _____,

Despite various challenges and great sacrifices in the 20th century, various Mongolian tribes have achieved rapid progress in politics, economics, society, and culture. On the other hand, modern Mongolia has intimate and complex relationships with Japan, Russia, and China. Today's Mongolia was precisely formed amidst the reorganization of international forces in the Far Eastern region.

Based on newly discovered documents and recorded oral histories that includes a view of the complicated history of the societies of Central Asia and East Asia, this symposium aims to expand the discussion on several issues using a broad perspective, which is particularly both historical and cultural in approach. Through what kind of process did the various border-crossing Mongolian tribes go through to reach its current situation? What kind of turbulent periods did modernizing Mongolians overcome, and what were they searching for? What were the legacy lessons?

We sincerely hope for your participation in this symposium.

Sincerely yours,

Heads of the Team for Supporting the Mission of the Symposium

Shurkhuu D (Ph.D, Institute of International Studies, The Mongolian Academy of Sciences)

Junko Imanishi (Chief Representative, Sekiguchi Global Research Association –

Atsumi International Foundation)
