3:45 - 4:15 AUTO INDUSTRY REPORT by CAMPI
Representative
4:15 - 5:00 PM PANEL DISCUSSION/INTEGRATION

Brief Description of Seminar Content
Presents preliminary research results on the shared growth performance of the Philippine automobile industry. This would include a survey of criticisms found in various studies that the Philippine automobile industry has not really achieved a shared growth performance at par with other industries or ASEAN countries. This research includes an analysis of how the shared growth performance of the automobile industry could be further improved. It starts with the premise that the automobile industry has tremendous potential for shared growth in the Philippines. The seminar seeks to establish the next steps in this research project in close cooperation with industry stakeholders.
