

Full day Tour of Kitakyushu City

This is your chance to experience a typical Japanese-style tour in which every minute is planned. This bus tour will take you to the foot of Kanmon suspension bridge, the Kanmon Strait, the Kanmon Undersea Pedestrian Tunnel, Old Sankiro restaurant, which is one of the largest wooden 3-story buildings in Japan, Mojiko Retro Observatory, Kyushu Railway History Museum, and the Former Mitsui Club where Professor and Mrs. Einstein stayed. We will have lunch in the same room Professor Einstein ate in.

After lunch, the bus will take us to Inochinotabi Natural History Museum (Trip Advisor's second best museum in Japan), the newly opened environmentally friendly TOTO Museum and Kokura Castle.

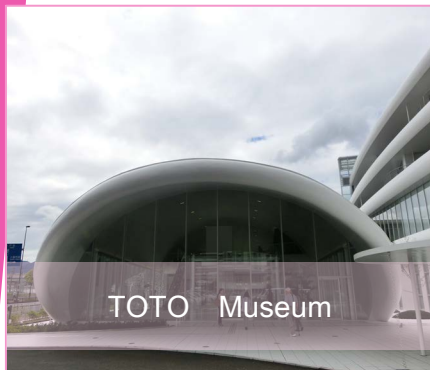

Kokura Castle
