The 5th ASIA FUTURE CONFERENCE

SUSTAINABLE SHARED GROWTH : Our Common Home and Happiness

持続可能な共有型成長：皆の故郷、皆の幸せ

Sustainable Shared Growth refers to rapid economic growth that is at the same time equitable and environmentally-friendly. While the world has experienced unprecedented economic growth, this has come together with increasingly unacceptable costs from widening disparities in wealth/income, as well as environmental degradation.

This conference adopts an interdisciplinary, intersectoral, and international approach to the vision of achieving Sustainable Shared Growth. It seeks to understand the various mechanisms that prevent or promote Sustainable Shared Growth from varied lenses, in the hope of finding paths towards fulfilling its vision.

持続可能な共有型成長とは、公平で環境に優しい、効率的な成長を指します。世界は未曾有の成長を遂げましたが、富や収入の格差の拡大、環境破壊など、ますます増加する高すぎるコストを支払っています。第5回アジア未来会議は、持続可能な共有型成長の実現というビジョンに、学際的、国際的、かつ部門連携的なアプローチで取り組みます。このビジョンの実現への道筋を探るため、持続可能な共有型成長を促進または疎外するメカニズムの様々な観点からの理解を試みます。
