

# “ Revitalization and Reconnection ”

In the aftermath of the Covid-19 pandemic, Asia and the world have entered a period of tremendous change. How do we face and overcome such diverse societal, economic, cultural, and educational changes? There is a need to examine the revitalization not only of Asia but of the world, and to do so from varied perspectives. We hope that this space for scholars and researchers from across disciplines and across the globe to reconnect and join in discussion will itself become a source of “revitalization” for Asia and the world, and that we can work together to find solutions.

## ■ Screening Procedure
