

Sustainable Shared Growth Seminar #24

Association for
Good Government
INCORPORATING THE AUSTRALIAN
SCHOOL OF SOCIAL SCIENCE

Sekiguchi Global Research Association
関口グローバル研究会

(As of August 8, 2017)

- **Theme:** Progress without Poverty of People and Nature: The Role of Land Value Taxation and Economic Rents
- **Hosted by:** Association for Good Government (AGG) and Sekiguchi Global Research Association (SGRA)
- **Date:** Sept 23, 2017 (Saturday)
- **Venue:** Sydney Mechanics School of Arts, Australia (see details below)
- **Background:** It was in discussions with Mr. Joffre Balce, leading to his brief presentation in the 20th Sustainable Shared Growth (a.k.a. KKK) Seminar, from which the land value tax has been added to the KKK short list. Mr. Balce is the Secretary of the Association for Good Government, based in Australia, which advocates the political economic policies of Henry George, a 19th-century American economist. One of the major advocacies of Henry George is the land value tax. This seminar will be held at an auspicious time and place. The seminar coincides with the month of the foundation of the Association for Good Government, founded in September 1901. The seminar is going to be held in Australia where land taxation is practiced in the form of municipal fees, a remnant of its Georgist days when Australia and New Zealand had the highest per capita incomes at the turn of the 20th CE.

"Men like Henry George are rare, unfortunately. One cannot imagine a more beautiful combination of intellectual keenness, artistic form, and fervent love of justice."
—Albert Einstein
