ABOUT UM
澳大概況

Founded in 1981, the University of Macau (UM) is an international public comprehensive university in Macao. It currently has over 13,500 students from nearly 50 countries and regions. English is the main medium of instruction, and 80 per cent of its faculty members are from outside of Macao. A truly multicultural university, UM constantly strives for excellence, as is reflected in its ranking among the world's top 200 universities.

The university motto is 'Humanity, Integrity, Propriety, Wisdom, and Sincerity'. In 1988, the Portuguese Macao government acquired and restructured the private University of East Asia, the predecessor of UM, and renamed it University of Macau in 1991. Teaching units at UM include Faculty of Arts and Humanities, Faculty of Business Administration, Faculty of Education, Faculty of Health Sciences, Faculty of Law, Faculty of Science and Technology, Faculty of Social Sciences, Honours College, Graduate School, and Centre for Continuing Education. Research institutes include Institute of Advanced Studies in Humanities and Social Sciences, Institute of Applied Physics and Materials Engineering, Institute of Chinese Medical Sciences, Institute of Collaborative Innovation, Institute of Microelectronics, Asia-Pacific Academy of Economics and Management, and Centre for Macau Studies. The university offers approximately 100 degree programmes at bachelor's, master's, and doctoral levels. UM has signed student exchange agreements with more than 160 partner institutions in over 30 countries/regions, where UM students can gain fresh insights.

Adopting a problem-oriented approach, UM devotes its resources to research areas of global importance. UM is among the top 1 per cent in Essential Sciences Indicators (ESI) rankings in 12 subjects, Engineering, Computer Science, Materials Science, Chemistry, Pharmacology & Toxicology, Clinical Medicine, Psychiatry/Psychology, Biology & Biochemistry, Social Sciences, General, Agricultural Sciences, Economics & Business, and Environment/Ecology. With the approval of the central government, UM has established three state key laboratories, dedicated to research in microelectronics, Chinese medicine, and the Internet of Things for smart cities.

With the support of the nation and the Macao SAR government, UM in 2014 moved to the current campus, which is located on Hengqin Island, Guangdong province, but is under the jurisdiction of the Macao SAR. The campus covers an area of around one square kilometre and offers UM the best conditions to pursue its educational ideals, one of which is holistic education implemented through a residential college system.

Looking to the future, UM will leverage Macao's strategic advantages. As a university firmly rooted in Macao, UM strives to participate in the development of the Greater Bay Area, integrate itself into national development, and reach out to the world. UM aims to become an internationally recognised university of excellence through quality student-centred education, internationally impactful research, and high-quality community services.

Also located here are the buildings of the Faculty of Arts and Humanities, the Faculty of Business Administration, the Faculty of Education, the Faculty of Health Sciences, the Faculty of Law, the Faculty of Science and Technology, the Faculty of Social Sciences, and the Cultural Building. An underwater tunnel, with lanes for vehicles and pedestrians, connects the East Zone and Cotai.

東區是澳大主要的門戶，也是教學區，設有地標性的圖書館、大學展館、中央教學樓和學生活動中心。人文學院、工商管理學院、教育學院、健康科學學院、法學院、科技學院、社會科學學院和崇文樓坐落於此。行人和車輛經此進出連接路氹的河底隧道。
